The conference will be held without oral presentations and organized exclusively in the format of a scientific articles collection.

Dear Members of the Academic Community

You are cordially invited to participate in the ***International Scientific and Practical Conference***, scheduled to be held on **December 27, 2025**. The conference is devoted to the integration of theoretical frameworks and practical applications in contemporary research, the consolidation of innovative approaches across various scientific disciplines, and the advancement of interdisciplinary academic cooperation.

The conference will be conducted **without oral presentations** and will be organized **exclusively on the basis of submitted scientific articles**.

Conference Purpose. The primary purpose of the conference is to highlight the intrinsic interconnection between fundamental theory and applied research in modern scientific inquiry, to unify innovative approaches across diverse fields of science, and to enhance the effectiveness of scientific activity through the integration of research methodology and experimental practice.

The conference aims to promote interdisciplinary integration, multi-directional research, academic collaboration, and the development of practical solutions applicable to the real sector.

Scientific Areas of the Conference

Scientific papers are accepted in the following areas:

- ***Fundamental theories and contemporary scientific methodology***
- ***Current issues in the integration of theory and practice***
